

Aged Book

Project Info

Intended Use of System

✳️ This webpage enables sharing and exchanging the previously read or redundant books for free. It is a book donation platform that offers access to the books a person is looking for.

Functionality

✳️ In this webpage you can view the published books by their categories, publish your books with their details from “MyPublishes”. Also, you can go back to the home by pressing “AgedBook”, see your user details from “ID” and log out by pressing “Logout”. You have to register from “Register” and login from “Login” before to access all the features mentioned above.

Highlights

✳️ Our website brings great advantage for people who are in a bad financial situation and still need to access various books. In this way, people can easily reach out the books that they need and take advantage of them without any charges.

Main Components of The System

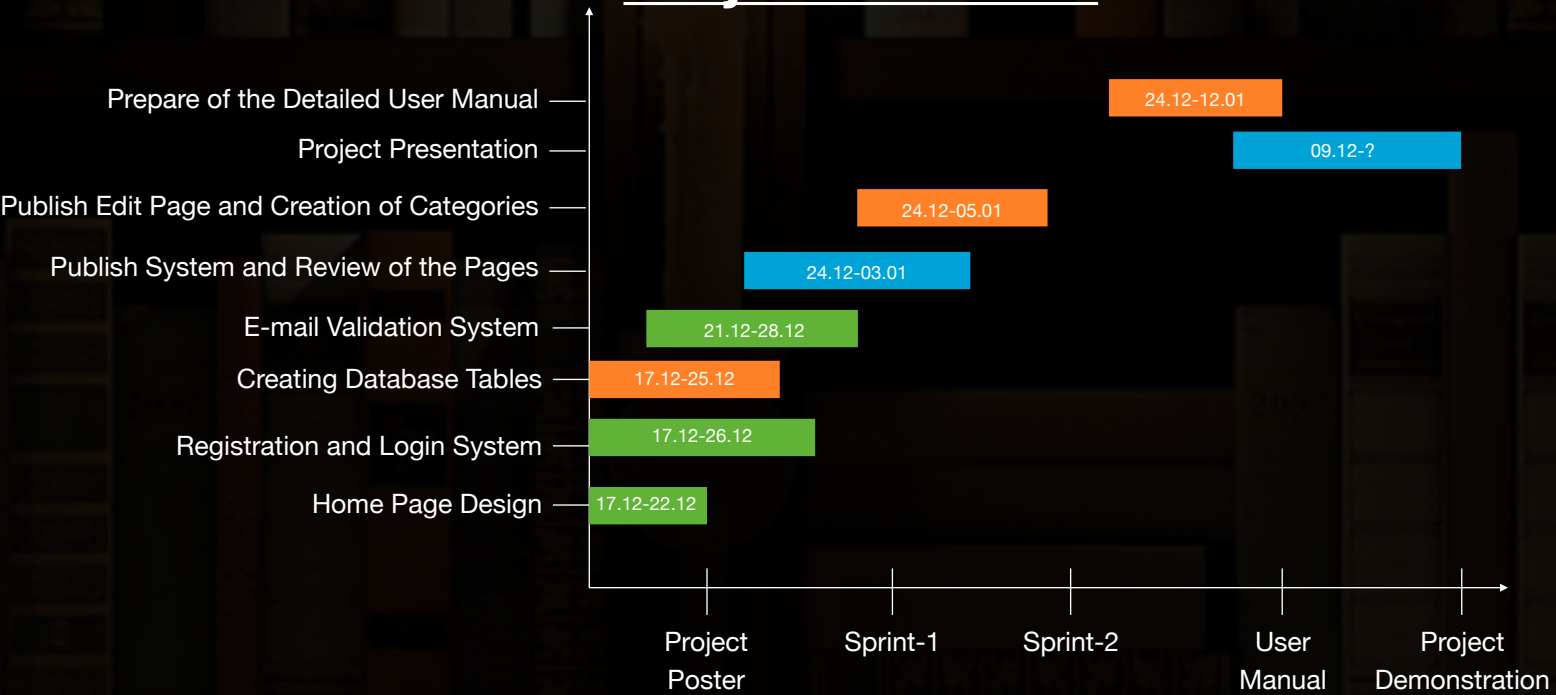

- The main components of the webpage are homepage, profile page, publish page and my publishes page.
- ✳️ **Homepage:** You can view the ads by their categories, date and contact details on this page.
- ✳️ **Register Page:** You can register from this page.
- ✳️ **Login Page:** You can login from this page.
- ✳️ **Profile Page:** You can view your personal details from this page.
- ✳️ **Publish Page:** The ads could be published from this page.
- ✳️ **My Publishes Page:** The ads which have been published by the user before, appear in this section.
- ✳️ User can access to “Register Page” from “Homepage”. After the registration has completed user can login from “Login Page” which appears on the “Homepage”, also user can see profile details from “Profile Page”.
- ✳️ When the publisher has published the ad from “Publish Page”, it will be added to selected category which can be accessed from “Homepage” and other users can see the ad from there, the publisher also can view and edit it from “My Publishes Page”.

System Requirements and Product Backlog

User Stories and Shorted Versions

User - 1	User - 2	User - 3	User - 4
User-register-login-story: (HIGH PRIORITY) I want to register and login to the site to able to view the books that I need.  User registers to the site from “Register”, logs in from “Login”.	User-get-book-story: (HIGH PRIORITY) (EPIC) I am a university student and I have to buy the books which are required for my lessons. It is too hard to afford these books for me. For that reason, I was looking for a donation platform and I saw the website “AgedBook”. There are various books on their site including in education books. I have registered the website than have logged in. I searched it from education category and found the book that I need thanks to the one publisher. I contacted with him and he sent me the book.  User registers to the site from “Register”, logs in from “Login”, presses “Education” category on homepage and then clicks the “Details” on the ad to see the contact details of publisher.	User-publish-story: (MEDIUM PRIORITY) I wanted to publish books which are redundant for me. I preferred to give the books for the people who need them. And I was be able to publish these books easily thanks to the “AgedBook”. I have the details of the book from publish page. Someone has contacted with me and have taken the one book already in 2 days after I published.  User goes to the “Publish” page, enters the details of the book and presses “Create”.	User-edit-book-story: (LOW PRIORITY) I have published a book but I have given it to the someone. I had to deactivate the ad from site but I did not want to delete it because other people can still reach me to take it and I have checked the donated box. Therefore, I can forward them to the who I’ve donated it.  User goes to the “MyPublishes” page then checks the donated box.
